

**HORSLEY FOOTBALL CLUB**

## 3G ASTRO TURF PITCH FOOTWEAR GUIDELINES

Together with the hire agreement for the 3G astro-turf pitch the correct footwear must be worn at all times, with no exceptions.

Football boots are the preferred footwear so you can use normal football boots but NO METAL STUDS. If you have boots with screw in studs they need to be changed for plastic ones. Studs with metal tips are ok but please have them checked prior to use. NO RUGBY BOOT STUDS which are longer than football studs and not appropriate for any football can be used.

It is HIGHLY recommended that you use moulded studs, or firm ground studs. Blades and proper multi stud astro-turf trainers are also acceptable NORMAL TRAINERS cannot be used as they flatten the artificial grass.

Below you'll see examples the recommended options of:-

(1) moulded studs, (2) firm ground studs, (3) blades, (4) multi studded astro trainers. If you have any questions please check before hiring.

ALL FOOTWEAR MUST BE CLEAN ON THE 3G – NO MUDDY FOOTWEAR AS THE MUD DAMAGES THE SILICON PIECES IN THE ASTRO TURF.

**Please remember you will not be allowed to use the 3G pitch without the correct and clean footwear so please don't turn up and be disappointed or complain.**
